## SERENDIPITY® CHAISE

### S120 - INDOOR VERSION

The model “indoor” is unique in its structure, combining design and functionality. With its adjustable tilting angle, it provides optimal relaxation without having to get off the seat. Its elegance and versatility make it perfect item for your home or for your professional environment.

## SERENDIPITY® CHAISE

### HYBRIDA/80 - HEATED

The heated version combines all the advantages described above, in addition to those known and reserved exclusively to spas. Reaching the temperature of 41°, it promotes the production of antibodies, reduces inflammation and generates an essential sense of peace, calm and relaxation.

### POLYETHYLENE HD - STONE EFFECT

Functionality and stability are guaranteed by the use of polyethylene HD that makes it suitable for any type of environment, both indoor and outdoor, private or professional, resistant to UV - salt - limestone. Light and handy, it is easily movable for any subsequent relocation and it simple to sanitize with the most common household products.
