

CLEANPAC

THE IDEAL CLEANER FOR HEAT PUMP MAINTENANCE

**RESTORES THE
OUTPUT**
OF YOUR HEAT PUMP

EFFECTIVE AGAINST
**GREASE &
DUST**

CLEANPAC, the extra-powerful cleaner from Poolex, has been tested to make your life easier.

Over time, the evaporator of your heat pump can become clogged. Dust, plant and organic matter can obstruct it, reducing its performance, and even causing it to fail.

CLEANPAC from POOLEX comes with a bottle incorporating an adjustable spray nozzle as well as a flexible body to access the most inaccessible parts of the evaporator.

Its combination of degreasing agents provides perfect efficiency right from first use, even for the dirtiest of evaporators, without affecting your heat pump.

For optimum use in full safety, follow the instructions on the bottle.

RINSE-FREE!

ADVANTAGES

FLEXIBLE BOTTLE WITH SPRAY NOZZLE

NO RINSING REQUIRED

CLEANS DUST AND GREASE

EFFECTIVE IN MINUTES

TECHNICAL DATA

Contents	1L
Reference	PC-CLEAN100
Amphoteric surface-active agents	Less than 5%
Non-ionic surface-active agents	Less than 5%
Preservatives	Methylisothiazolinone Methylchloroisothiazolinone

BIGFOOT

SPECIAL HEAT PUMP

FOR USE ON ANY
LEVEL
GROUND

COMPATIBLE WITH THE WHOLE
POOLEX*
RANGE

*apart from Mégaline

Made from recycled rubber tyres, and integrating an aluminium slider for affixing it to the HP, Poolex's Big Foot are compatible with all heat pumps (apart from Mégaline).

They are used on level ground, on a bed of sand or gravel. Their elasticity means they optimally absorb HP vibrations to reduce noise.

**NEW FOR
2020**

ADVANTAGES

COMPATIBLE POOLEX RANGE
(APART FROM MÉGALINE & NANO)

**OPTIMAL ABSORPTION
NOISE REDUCTION**
