Abachi benches and  
headrests

Exterior in red cedar  
and Abachi.

Parameters have been studied to ensure this sauna's energy-efficiency has been optimized.

Its walls are insulated and the space beneath the benches is enclosed for optimal insulation. Door closing and its structure have been designed to prevent heat loss.

For a substantial number of users (6 persons), such a sauna normally requires an 8 kW stove connected to a 380 v power socket. With our excellent insulation, a simple 4.5 kW stove, as found in a sauna for 3 persons, is sufficient.

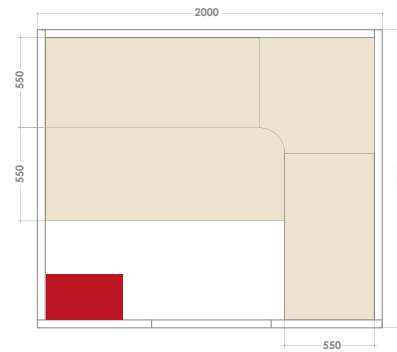

### ADVANTAGES

OPTIMIZED INSULATION  
VAPOUR BARRIER  
COMFORTABLE 2-TIER BENCHES  
LED CHROMOTHERAPY  
SAUNA KIT INCLUDED  
EXTERIOR IN RED CEDAR AND ABACHI
